Hi Susan,

Yes - I/we will research this topic today.

On website - [REDACTED] is updating the owner list and we will have that done today and get it to you. I was planning to personally contact owners but will take direction from you on this. [REDACTED] contacted [REDACTED] about the capacity table. [REDACTED] said the one on the web was the one to leave there.

Subject:

Dear [REDACTED]

Would you please have someone research the benefits (if there are any) of the K-3/4-6 configuration? We are doing the CI/Oak View/FO configuration in order to provide more Early Childhood and help FO out of AYP. Is there any sound educational benefit?

Other school systems have created these kinds of schools. Why and what has been the result?

Can you help?

Also, I appreciate that you have already made a list of who owns links on our Web site. Please recommend to Cabinet how we proceed. There are high priorities that need to be addressed ASAP and then a long-term plan.

Thank you,

Susan

Susan K. Hintz
