Dear [redacted]

The other options that TEAMWORKS referenced were not part of the materials that the consultant gave us. I contact the firm to see if they are explicit or were, in fact, part of the means to their end result. I have the list of Action Team members, but as a result of your inquiry, I am having [redacted] denote each members' title. I will forward that information as soon as I receive it.

Also, I would be more than happy to meet with you to respond to any additional questions and concerns that you may have.

Respectfully,

Susan Hintz

Subject: Request for Information: Other Options Considered?

Importance: High

My name is [redacted] I'm a taxpayer, voter, and parent of [redacted]

My [redacted] self and numerous other parents are concerned about the decision to close one of the best elementary schools in the district and turn it into a magnet school. This solution would seem to punish a performing school and, the only precinct in the district where the voters voted in favor of all three levy questions.

My specific e-mail today though, is to ask where I can find more details about the other four options that were considered by the School Closing and Boundaries Action Team? Also, what was the composition of the School Closing and Boundaries Action Team?

Both of these would seem to public information. Please let me know what the response time to this inquiry will be.

Best Regards,
